

Addressing Substance Use Disorders and Behavioral Addictions with EMDR Therapy

Please join us for an in-person training that includes small group practicum time in:

Castle Rock, Colorado (Denver area)

June 20th and 21st 2024

Interested in addressing substance use disorders and behavioral addictions with EMDR and getting lost in a maze of Feeling States, DeTURs and stabilization barriers? Need some direction? No worries, I've been down those roads and created a step by step, phase by phase, treatment map for you!

How do you learn? To accommodate a variety of learning styles, the training uses demonstration, case presentation, lecture, video clips, and practicum that explores the use of EMDR therapy in the treatment of substance use disorders and other compulsive behaviors—specifically, with clients who are not yet abstinent. This treatment focused and practical workshop teaches you how to stabilize clients and desensitize addiction memory networks without increasing risk of relapse.

Presented by Hope Payson LCSW, LADC

Hope Payson, LCSW, LADC is a clinical social worker and licensed addiction counselor. Among her areas of expertise are working with clients who have histories of intergenerational trauma, incarceration, and financial hardship. She is an EMDRIA Approved Consultant, and an EMDRIA Approved Basic and Advanced Trainer who has over 30 years of experience as a clinician in a variety of settings. She currently maintains a private practice while also presenting at conferences on topics ranging from EMDR, complex trauma, addiction, and ways to promote both individual and systemic recovery. Hope also assists private and non-profit organizations in creating trauma informed systems of care. She is the Producer of the documentary "Uprooting Addiction: Healing From the Ground Up" and authored a chapter of the book "EMDR and Group Therapy: Emerging Principles and Protocols to Treat Trauma and Beyond".

The training material is integrated into each phase of EMDR Treatment

Goals and Objectives, participants will be able to:

- Describe how trauma symptoms increase vulnerability to addiction.
- Explain the basic findings of the ACE (Adverse Childhood Experience) Study.
- Identify history taking questions that can be used to assess readiness for trauma processing.
- Describe how to use motivational interviewing techniques in the history taking Phase of EMDR therapy.
- Identify the common resourcing needs of persons with histories of complex trauma and addiction.
- Identify at least 2 addiction specific stabilization options to use in Phase 2 of EMDR therapy.
- Describe the steps involved in addressing and desensitizing cravings, urges and triggers related to substance/behavioral addictions.
- Explain the term: maladaptive positive feeling state.
- Identify how to address the maladaptive “positive” feelings, body sensations or irrational cognitions linked to addictions.
- Describe when addressing underlying trauma using Standard Protocol EMDR would be appropriate.
- Describe when the use of Addiction Protocols would be appropriate.
- Identify treatment planning options, and common negative and positive cognitions.
- Apply EMDR therapy to address common treatment barriers.

Program Timeline and Content

Day One

9-10:00 AM - Intro of presenter and brief survey of knowledge base of audience. Introduction to the use of EMDR therapy with addictive disorders and the connection between trauma and addiction—citing research in this area. Considerations regarding the use of EMDR therapy to address active addiction vs waiting until the client is abstinent.

10:00-10:30 How to take a trauma/addiction sensitive client history and assess for stage of change and common risk factors.

10:30-10:45 Break

10:45-12:00 Using Motivational Interviewing techniques to address stages of change. Live demonstration.

12:00-12:30 Review the preparation phase and addiction specific resources, that can be used to stabilize Clients in any stage of change. Video demonstration and practicum.

12:30-1:30 Lunch

1:30-3:00 Continued review of phase 2 protocols that can be used when addressing addictions. Lecture, video clips and practicum.

3:00-3:15 Break

3:15-4:30 The use of AJ Popky’s “Positive Treatment Goal” to stabilize. Video demonstration and practicum.

Day Two

9-10:30 Review of Day One, then a review of how to desensitize triggers, urges and cravings. Lecture, video clips and practicum.

10:30-10:45 Break

10:45-12:30 Introduction to how to identify and desensitize “Positive Feeling States” and avoidance defenses. Live Demonstration, lecture, and video clips.

12:30-1:30 Lunch

1:30-2:15 Practicum—desensitizing “Positive Feeling States” and avoidance defenses.

2:15-3:00 Video clips and discussion on the use of the Standard EMDR Protocol to address common treatment barriers.

3:00-3:15 Break

3:15-3:30 Treatment “flow chart”—presentation about treatment planning considerations when working with individuals with histories of complex trauma.

3:30-4:00 Sculpture Demonstration/Case Review—a demonstration of an individual “treatment map” that tracks the course of treatment over time.

4:00-4:30 Review of all material using PowerPoint and video clips. “Floating forward” to Monday—consultation/questions about using key concepts with clients in the future.

All taught step-by-step with videos, demonstration, and practicum
